⁽¹⁾ See “Reconciliation of Non-GAAP Measures – Adjusted net income attributable to LHC Group” to GAAP results on page 11.

Operational and Strategic Highlights

- LHC Group quality and patient satisfaction results continue to exceed the national average with 98% of its same store locations having CMS Quality Star ratings of four stars or greater.
- Total growth in home health admissions was 94.1%; organic growth was 9.7%.
- Total growth in home health revenue was 83.4%; organic growth was 9.3%.
- Total growth in hospice admissions was 32.5%; organic growth was 5.1%.

- Our number of ACO's under Company management for the year ended December 31, 2018 increased to 30 ACO's covering 460,000 Medicare lives from 16 in 2017 which covered 140,000 Medicare lives.

Commenting on the results, Keith G. Myers, LHC Group's Chairman and Chief Executive Officer, said, "LHC Group's strong performance continues to resonate across the industry with growing recognition by hospitals, payors and other stakeholders of the crucial role we play in the homes and communities of the patients and families we are privileged to serve. The organic growth we have generated to date in 2018 demonstrates the fruits of our commitment to quality, efficiency, and clinical outcomes across a national in-home healthcare platform. We have extended this same commitment to pursuing new growth opportunities as well, with the completion of the \$800 million acquisition of Almost Family, five new joint ventures, and other select acquisitions in 2018. With such a strong foundation of diversified growth, we expect continued disciplined deployment of capital to accelerate our earnings growth for years to come.

"LHC Group is uniquely positioned to thrive in both the industry's present environment and in the future as we shift to value-based reimbursement. Our unique positioning is enhanced by a growing number of hospitals and health systems that recognize the inherent value of our business model and our ability to create high-performing post-acute networks for them. The experience we have gained through the ownership of one of the nation's largest Accountable Care Organization management companies is also a considerable and virtually unmatched asset that increases our appeal to payors, hospitals and other risk-bearing entities."

Fiscal Year 2018 Guidance

The Company re-affirmed its guidance for fiscal year 2018 issued on May 2, 2018. Net service revenue is expected to be in a range of \$1.81 billion to \$1.86 billion, and adjusted earnings per diluted share is expected to be in a range of \$3.45 to \$3.55. The guidance assumes the following:

- The Company expects to achieve a total of \$25 million in pre-tax synergies in connection with the Almost Family transaction, with \$8 million to \$12 million realized in 2018 (of which approximately \$6.6 million has been realized through the third quarter of 2018);
- An estimated effective tax rate of 28% to 29%, which reflects the positive impact from passage of the Tax Cuts and Jobs Act of 2017; and
- Weighted average diluted shares of approximately 28.0 million for the full year of 2018.

The Company's guidance ranges do not take into account the impact of future reimbursement changes, if any, future acquisitions, if made, *de novo* locations, if opened, location closures, if any, or future legal expenses, if necessary. The adjusted earnings guidance for 2018 is presented on a non-GAAP basis, as it does not include the impact of transaction related costs, integration related expenses or other expenses related to the acquisition of Almost Family or other acquisitions. Given the difficulty in predicting the future amount and timing of these expenses, the Company cannot reasonably provide a full reconciliation of its fiscal year 2018 adjusted earnings per share guidance to GAAP earnings per share.

Commenting on the 2018 outlook, Joshua L. Proffitt, LHC Group's Chief Financial Officer, added, "We are experiencing an unprecedented year of growth. Our industry leading quality scores combined with our disciplined go-to-market strategies are generating strong same-store admissions growth, and our inorganic growth will continue to be fueled by the benefits from the Almost Family acquisition, contributions from other acquisitions completed in 2018 as well as those currently under consideration in a very robust pipeline. The combination of these different growth levers and the success to date in integrating the Almost Family operations give us the confidence that we will achieve the 12% to 15%

adjusted earnings accretion from the Almost Family acquisition in 2018 and continue to experience accelerated revenue and earnings growth well into the future.”
